

ST125

Rework Station

Digital Sensatemp Rework System with Hi-Flo Snap-Vac® Pump

The ST 125 is ideal for users dealing with a wide range of applications. With this system, you can solder, desolder, and remove components using a variety of Sensatemp® powered handpieces. The system comes standard with PACE's patented Hi-Flo Snap-Vac® Pump technology to ensure quick, clean removal of solder from any through-hole joint or surface land. The Hi-Flo pump is so powerful that you won't lose vacuum in continuous use applications. With its simple digitally controlled design and durable yet compact frame, the ST125 can be the most valuable system on your workbench today.

- Standard Packout Includes SX-100 Sodr-X-Tractor
- User defined operating temperature range
- Patented SnapVac® Technology
- ESD Safe Metal Housing

Specifications	ST 125	ST 125 E
Kit with Handpieces Part Numbers:	8007-0607 (SX-100)	8007-0608 (SX-100)
Power Source Only Part Numbers:	8007-609	8007-0610
Power Requirements	97-127 VAC, 50/60Hz (120 Watts Maximum)	230 VAC, 50/60 Hz (120 Watts Maximum)
SensaTemp® Compatibility	SensaTemp® Technology	
Vacuum/Pressure Source Type	Self Contained Pump	
Vacuum (Nominal)	20 in Hg Max	
Pressure (Nominal)	18 p.s.i.
