New

BTC-3 Smart Car Battery Tester & Charger 2-120Ah/12V3A

- Display: LED
- Application: Car&Motorcycle Battery
- Battery type: AGM/GEL/EFB/Lithium ect.
- Socket Standard：EU/US •

Feature

1. Built-In LCD Screen
With more accurate figure to display readout more intuitively

2. Heavy Duty High-Quality Alligator Clip
With 30MM Diameter alligator and square connectors, the charger is good for all types of vehicles with a 12V battery. Use it to power up the fully drained acid batteries on your car, lawn tractor, scooter, bike, boat, camper, jetski, Skiidoo, lawn mower automobiles, motorcycles, ATVs, personal watercraft, RVs, boats, airplanes, golf carts, back-up generator systems and etc.

3. Estimated Charging Time
Different from ordinary battery chargers on the market, CAT-200 can display the estimated charging time on the LED display screen. With this feature, you no longer have to worry about the charging process.
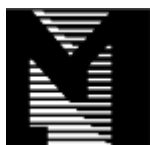

4. Two Charging Modes
If you only need to charge, you can choose "Auto charging" and then press OK key; Or just plug the device in the power, connect with battery, and then wait about 15 minutes, the instrument will automatically start charging.

5. Wide usage
Fit for all kinds of regular battery, AGM, EFB, GEL, Lithium battery

Specifications

Input voltage	100-240VAC 50/60HZ
Output	14.4/14.7V, 3.0A max
Battery Type	Wet Cell(Flooded),Gel Cell,AGM,Lithium,EFB,Or Any Maintenance-Free
Battery Capacity Range	2-120Ah Maintains all battery sizes
Battery Voltage	12-Volt lead-Acid and Lithium-Ion Batteries
Charge type	Smart & Automatic Chargeing cycle
Testing Scope	CCA40-2000
LCD Size	50*30MM
Ambient Temperture	-20°C to +50°C
Dimensions	127*80*45(L*W*H)
Actual Weight	470g
